

Dear Executive Office of Environmental Affairs Secretary Stephen R. Pritchard, Department of Environmental Protection Commissioner Bob Golledge, the Energy Facilities Siting Board of the Massachusetts Department of Telecommunications and Energy, the Massachusetts Office of the Governor, the Russell Board of Selectmen, Zoning Board of Appeals, Planning Board and Conservation Commission, Westfield Mayor Richard Sullivan, Westfield Planning and Zoning Boards and Conservation Commission, and members of neighboring communities:

We oppose the building of a biomass power plant on the old Westfield Paper Co. site in Russell.

Please stop the Russell Biomass plant proposal. It is the wrong plant for the wrong place.
